

Midwest Electric, Inc.

A Touchstone Energy® Cooperative 

STAKING & FIELD PLANNER

Midwest Electric is a member-owned electric distribution cooperative providing electricity to 11,000 homes and businesses in 7 counties in west central Ohio. We are recognized nationwide as a leader among America's 900 electric cooperatives and play a vital role in the communities we serve. We are currently in the top tier among electric cooperatives nationwide for member satisfaction from the American Customer Satisfaction Index (ACSI).

Midwest Electric is excited to offer a career opportunity for a Staking & Field Planner. In this role, you will handle line staking activities for various projects, such as construction work plans, new service requests, upgrades to existing services, and pole replacements. This role supports engineering services and involves designing and estimating extensions, maintenance, and upgrades for electric service to new and existing premises and developments.

Applicants should possess a solid understanding of electric utility distribution systems, construction practices, equipment, tools, material management, and safety standards. Familiarity with the National Electric Safety Code, RUS engineering standards, and OSHA regulations is essential. The position requires proficiency in reading and interpreting construction plans and specifications.

Excellent verbal and written communication skills, along with strong analytical and planning abilities, are needed to effectively work with our members on service requests. Candidates should also demonstrate proficiency in mathematics and computer skills, with a strong attention to detail and accuracy. Adaptability to evolving technologies within the work environment is also a key attribute we seek.

Midwest offers an extremely competitive benefits package. Benefits include:

- Health Insurance
- Retirement Plans - 401k & Pension
- Paid Vacation, Sick Leave and Holidays
- Short-Term & Long-Term Disability
- Life Insurance
- Tuition Reimbursement
- Wellness, Safety, and Employee Assistance Programs
- and much more!

Qualified applicants may submit a cover letter and resume to:
